KUBRI 2013: The Career and Education Fair for the Arab World

Subheading: Opening of the third EuroArab Career and Education Fair KUBRI on 24 May 2013, 10:30 hrs – Technische Universität München, Germany

*For the third time companies and universities from Europe and the Arab countries present themselves and provide information about their job and study offers in the MENA region. Experts from both regions guarantee a top-flight supporting programme. Admission is free for visitors. *****

After two successful events in 2011 and 2012, the EuroArab Centre for Education is organising the third EuroArab Career and Education Fair KUBRI at Garching Campus of Technische Universität München, Germany, on 24-25 May 2013.

Besides job offers and internships in or relating to the countries of North Africa and the Middle East (MENA Region), the Fair will in particular highlight study courses involving Arab universities.

“One aim of KUBRI is to develop Euro-Arab relations and boost dialogue especially at times of upheaval”, commented Norbert Hoffmann, co-organiser of KUBRI.

In parallel with the Fair, a high-profile visitor’s programme will provide information on current developments and in particular on the professional and academic opportunities in the MENA region. The programme will include events ranging from panel discussions and exhibitor presentations, to intercultural workshops and student presentations.

KUBRI receives particular support through the German Academic Exchange Service (DAAD), the German-Arab Friendship Association (DAFG), the Deutsche Gesellschaft für International Zusammenarbeit (giz) and Technische Universität München (TUM).

The public opening for KUBRI will take place on 24 May 2013, 10:30 hrs at Garching Campus of Technische Universität München.
